MHA issues alert against illegal payment gateways

PRESS TRUST OF INDIA
New Delhi, 28 October

The Ministry of Home Affairs (MHA) has issued an alert against illegal payment gateways created by transnational gangs of cybercriminals using mule bank accounts and are being used for facilitating money laundering, officials said on Monday.

The gateways are created by transnational cybercriminals who provide money laundering services using accounts of shell companies and individuals, exploiting the bulk payout facil-

ity provided by banks, it said.

Police in Gujarat and Andhra Pradesh recently conducted nationwide raids which showed that cybercriminals have set up illegal digital payment gateways using rented bank accounts for laundering the proceeds of different crimes.

"Some of the payment gateways identified during the operation are PeacePay, RTX Pay, PoccoPay, RPPay etc. These gateways are learnt to be providing money laundering as a service and are operated by foreign nationals,"

a government statement said.

When information gathered by the state police was analysed by the Indian Cybercrime Coordination Centre (I4C), the modus operandi of the cybercriminals (which) came to fore...showed that criminals scout for savings and current accounts of shell companies and individuals through

Telegram and Facebook.

"These mule accounts are controlled remotely from overseas. An illegal payment gateway is then created using these mule accounts which are given

to criminal syndicates for accepting deposits on illegal platforms like fake investment scam sites, offshore betting and gambling websites and fake stock trading platforms, etc.," the statement said. It said the proceeds of such crimes are immediately layered into another account as soon as the crime proceeds are received.

"Bulk Payout facility provided by banks are misused for the same," it added. "I4C has advised citizens not to sell/rent their bank accounts/company registration certificate/Udyam Aadhaar Registration certificate to anyone."

CPCB cracks down on plastic waste violations

NITIN KUMAR
New Delhi, 28 October

In response to rising complaints regarding violations of the Plastic Waste Management (PWM) Rules, 2016, the Central Pollution Control Board (CPCB) has issued stringent orders to State Pollution Control Boards (SPCBs) and Pollution Control Committees (PCCs) to enforce immediate action against offenders.

These violations, which include the use of plastic carry bags below the mandated thickness and unauthorised single-use plastic products, have raised concerns about compliance with national plastic waste regulations.

To prevent unauthorised use, CPCB has called for enhanced surveillance and issued a reminder that government-issued tender documents must align with PWM specifications to avoid regulatory breaches. SPCBs have also been instructed to issue public notices and coordinate with local authorities to communicate the new directives through

print and electronic media, raising awareness among manufacturers and private entities alike.

Plastic packaging is classified into four categories based on its composition and usage. Category-I includes rigid plastic packaging, while Category-II covers flexible plastic packaging, which can be single or multilayered, consisting of different types of plastic.

Category-III is defined as multilayer plastic packaging, comprising at least one plastic layer combined with another non-plastic material. Finally, Category-IV includes plastic sheets used for packaging, as well as carry bags made from compostable plastics. These classifications help streamline waste management and recycling processes under PWM regulations.

According to CPCB's annual report on the implementation of PWM Rules, 2016, India's plastic waste generation has seen a significant rise over the past five years.

HDFC Bank cautions against digital arrest

A day after Prime Minister Narendra Modi warned citizens about "digital arrest", HDFC Bank issued an advisory urging its customers to stay vigilant and avoid falling victim to such fraudulent practices. The country's largest private sector bank has shared tips on how its customers can protect themselves from the emerging online fraud. It has asked its customers not to share sensitive information such as KYC details, bank details like user ID password, card details, CVV, OTPs or PIN number with anyone. The bank has suggested that in the event of a person becoming a victim of any online fraud, they should immediately report the unauthorised transactions to the bank in order to get the payment channel blocked, i.e. cards/UPI/net banking to safeguard against future losses.
